The **Assocarni** - was born in 1983 at the initiative of a group of players willing to create an organization capable of responding effectively to the needs of a sector in constant and rapid development.

Ever since then, has focused on specialization and selection of member companies, to become, today, more representative industry association of meat (slaughter, cutting, packaging, processing).

The 170 member companies are represented by the main Italian cattle at slaughterhouses "CE mark", and higher cutting plants, processing and meat processing.

Among its activities:

Updated and comprehensive information:

*It informs in real time, through daily e-mail and website, on specific industry and meat on general topics of business interest (tax law, environmental, labor and trade union statistics, domestic and foreign prices and market trends).

Close and constant contact with the Italian public administration and the EU institutions:

It's the main interlocutor of the national and Community institutions, plays an active role already in the preliminary stages of drawing up administrative measures and regulations, helping where necessary or required, with detailed comments and proposals for action and concrete. And 'State Journal:

- * Advisory Committees of EU beef, pork, sheep, weather, animal welfare and animal production
- * Table of the National Cattle Die in representation of the Italian meat
- * Chain of the table of the Lombardy Region and similar initiatives in other regions
- * Working Groups of the CIAA (Confederation of European Food and Drink Industries).

International representation:

it adheres to:

* CONFINDUSTRIA Federalimentare and as a representative of the Italian beef and veal in particular those

* IMS - International Meat Secretariat, a body representing the major industries of beef in the world

* EMA - European Meat Association, European Association of the slaughter industry, officially recognized by the EU Commission, which currently has the presidency.

Concrete assistance and services to member companies:

* protects and promotes the interests of the institutional Associates regional, national and Community

* represents a privileged and authoritative channel for conveying the voice of Companies Institutions

* ensures a qualified management company operations and relations with central and local government (legal aspects and legal regulations of EU and national health and veterinary issues, policies of foreign trade)
